Mechanical Circulatory Devices & Supplies
ETS Program Reference Guide

Emerging Therapy Solutions® (ETS) helps reinsurance and stop-loss payers, health plans, HMOs, and self-funded employers, along with third-party administrators and brokers, manage the risk associated with high-cost therapies for rare and complex conditions.

ETS provides network access for complex and specialty treatments for programs at healthcare facilities that deliver quality, cost-effective care. Below are mechanical circulatory device (MCD) programs, including access to ventricular assist devices (VAD) and supplies, for which ETS has contracted rates in place.

For assistance with your member referral or to learn more, contact ETS at clientservices@emergingtherapies.com or call us at 877.445.4822.
