

Hemgenix® Gene Therapy Treatment Centers

ETS Program Reference Guide

Emerging Therapy Solutions® (ETS) helps reinsurance and stop-loss payers, health plans, HMOs, and self-funded employers, along with third-party administrators and brokers, manage the risk associated with high-cost therapies for rare and complex conditions.

Programs listed here are Hemophilia Treatment Centers (HTCs) that are a part of Hemophilia Alliance Network Services (HANS) for which ETS has contracted rates in place, unless *otherwise designated*, for **Hemgenix®** (etranacogene dezaparvovec) which is approved to treat adults with **hemophilia B**.

Centers *otherwise designated* may be manufacturer-approved treatment centers and/or centers for which ETS either has direct contracted rates in place or has access to rates through single case agreements (SCA). Please note that although several of the below facilities are pediatric centers, they may offer Hemgenix to adults of a certain age. For assistance with your member referral or for more information, contact ETS at clientservices@emergingtherapies.com or 877- 445-4822.

 Denotes *otherwise designated* centers that are either manufacturer-approved treatment centers, or centers at which ETS has direct contracted rates in place or for which an SCA is possible.
